

Michael Grebowicz

Full Stack Software Developer - San Francisco
maciejgrebowicz@gmail.com - [Portfolio](#) - [LinkedIn](#) - [gitHub](#)

Profile

Full stack developer primarily experienced with Javascript and Python. I love the satisfaction that comes with solving complex coding problems. My approach to coding is methodical and focused on best practices because I want to get things done the right way. I am now looking for a position in an ambitious company with a team driven culture where I can grow professionally and develop my coding skills.

Skills

- Languages - JavaScript, Python, HTML5, CSS3
- Frameworks - MongoDB/Mongoose, Express.js, Node.js, Django
- Libraries - React, Materialize, Bootstrap

Projects

- Beer Can Racer - a full CRUD app developed with Javascript, Express.js and Mongoose
- Buoy Tracker - a full stack MERN app developed using standard meteorological data from the Nation Data Buoy Center
- Connect Four - a browser game developed with Javascript, HTML5 and CSS3

Highlighted Professional Experience

UCSF Medical Center - Unit Coordinator, Hematology 06/17-10/19

- As a unit coordinator, I was responsible for assisting the nursing and medical staff to maintain a timely workflow. Whether it was making sure a patient got platelets from the blood bank on time, or they made it to their radiology appointment, I relied in my leadership and communication skills to get the job done.

Seton Medical Center - Emergency Department Technician/EMT 06/14-05/17

- I was part of an emergency room team responding to life-threatening emergencies in and out of the hospital. To be successful in this role I learned to work under extreme pressure and utilize my teamwork skills to ensure the best outcomes for the patient.

Accomplishments and Volunteering

Farallon Patrol - Auxiliary Skipper/Crew Member 08/16-Present

- Farallon Patrol is a volunteer organization which shuttles and resupplies the scientists who live and work on Southeast Farallon Island, a critical seabird and marine mammal breeding site. A typical trip involves safely navigating across roughly fifty nautical miles of open ocean.

Schooner Sea Raven - Chief Mate 06/18-10/18

- A non-profit sail training program focused on traditional maritime skills preservation. My role included the supervision and training of five sailors which culminated in a multi-day circumnavigation of the Gulf of the Farallones.

Haida Gwaii Sailing Expedition - Crew Member 08/16-10/16

- A North to South traversal of British Columbia by way of Haida Gwaii aboard the 44 foot staysail schooner Gitana. This voyage lasted two months and covered approximately 1000 nautical miles.

Education

General Assembly - Software Engineering Immersive

The City College of New York

Bachelor of Arts, History - Cumulative GPA 3.482, Major GPA 3.6

Achievements

- Blanksteen Scholarship for Academic Excellence
- City College Research Fellowship
